## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities: Continuation data and foreign priority claim are missing from the specification.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 5 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The process of claim 5 “[consists] solely of mathematical operations, i.e., converting one set of numbers into another set of numbers, does not manipulate appropriate subject matter and thus cannot constitute a statutory process.” MPEP 2106.2.

### ***Allowable Subject Matter***

2. Claims 1-4 are allowed.

## ***Examiner’s Statement of Reasons for Allowance***

The following is an examiner’s statement of reasons for allowance: The prior art of record does not, alone or in combination, disclose, among others, a first squaring device for squaring the first resulting signal, a second squaring device for squaring the second

Art Unit: 2862

resulting signal and a third signal linking device for obtaining the output signal by additive linking of the squared first resulting signal and the squared second resulting signal in accordance with the rule

$$V_a = K_3 * \{(1/8) * (K_1/K_2)^2 * (V_2^2 - (V_1)^2)\},$$

in which K3 is a freely selectable third constant factor.
